## INTERPRETATION OF LAW AND JUSTICE:

The unitarity of Law and Justice functions as Moral, **to protect** those who are habitual holder of civics that is social, **against** those who are habitual defaulter of civics or defaulter by the wildness that is unsocial. Law and Justice unitarily functions as the **Moral Icon**, under the domain of scientific and philosophical equanimity of mind that give rise to the counterproductive ability of scientific and philosophical tie-in, under the domain of the wisdom of 4<sup>th</sup> dimension.

## THE ORIGIN OF TENETS:

The scientific and philosophical equanimity of mind (*Yoga*) give rise to the counterproductive ability of the scientific and philosophical tie-in, under the domain of the wisdom of 4<sup>th</sup> dimension that is known as ameliorated mind-set. Therefrom the counterproductive ability of scientific and philosophical tie-in patently invents **tenet**, for well-being of humankind since **Vedic Era**.

## THE IMPORTANCE OF TENETS:

Tenet (Central principle) is the qualitative-title of intellection of moral values, enriched by **discreetly constant logic** of eclecticism, towards caring progress of **civilization**, as mnemonic under the domain of the aforesaid origin of tenet.

Tenets determine civics towards caring progress through state-of-mind of the civilization. Therefore tenets are **code of civics** being core value of civilization.

Tenets individually or collectively transposes into **constitutional preamble** or preface or proclamatory prime obligation of the union of humankind.

The constitutional preamble determines multifaceted morals that are known as **mandates**, in compliance with the ruling of concerned tenet/s.

Mandates individually or collectively defines policies that is known as **articles**, whereinto articles transposes into multifaceted **law**, as the tool of governance duly protected by **judicature** that trailed civilization, showing no prejudices for or against anything, intend for collective well-being of humankind.

The multifaceted law determines justifiable **punishment** to the extent of death penalty (Capital punishment), as per intense need or emergent need to protect Tenets; in that sense to protect Humankind through **judicature** that holds the merit of tenets and trailed civilization by the application of **justice**.

Tenets are enforced for understanding the Law of the Universe, through the Universal Constant (Wisdom of 4 <sup>th</sup> Dimension), intend for attributing justice for and on behalf of Time; showing no prejudices for or against anything.
