THE TRIO-LOGY OF MATHEMATICS

PREFACE:

Mathematics is qualitatively the faceted singularity of science and philosophy. Thereby mathematics is the core factor for eclectic expression of both science and philosophy, by the method of the Trio-logy of Mathematics.

With the standpoint of reality or similar sense, in relevance of entirety of entity; both science and philosophy remain imaginary, imponderable and meaningless, without explication by the method of the Trio-logy of Mathematics.

THE TRIO-LOGY OF MATHEMATICS:

1. The irrefutable logic of the connotative sign (∞) of the infinite field value, in addition to finite field values, can be explicated only by the mathematical method of Cross Referential Division Followed By Addition of the sequence of the divisible cardinal numbers of the analogous geometric coincidence, as an inseparable unit of duality, as the facet of singularity.
↑↓
2. The irrefutable logic of coming Zero (0), as continuant by the single dot (•) as decimal point (•), till equal division between divisible cardinal numbers, can be explicated only by the occurrence of the Zero as both Superset and Subset as certain, by both maximal value and minimal value of the divisor, as an inseparable unit of duality of the faceted Singularity, as stated herein above by the serial number 1.
↑↓
3. The irrefutable logic of the connotative qualitiveness of the indivisible Zero (0) as wholeness, can be explicated only by the certainty of the Zero as both Superset and Subset, as an inseparable unit of duality of the faceted Singularity, stand in with the factor that energy neither created nor can be destroyed, as mentioned herein above by the serial numbers 1 and 2.

CERTAINTY PRINCIPLE BASED ON TRIO-LOGY OF MATHEMATICS:

WITH THE STANDPOINT OF THE QUANTIFICATION LIMIT OF THE TRIO OF TIME, ENERGY AND FIELD AT THE POSITIONAL SET VALUE {0} OF ZERO:

- Time** ÷ **Energy** = **1** as the phenomenon of impetus of the positional set value.
∴ **Time** = **Energy** as the phenomenon of impetus of the positional set value, as an inseparable unit of duality of the faceted Singularity.
∴ **Time** = **Energy** is the practicality of universal cycle of energy, encompassing both the endless extents (∞) of minimal field value and maximal field value.

THE TRIO-LOGY OF MATHEMATICS

AUTHORIAL STATEMENT:

Conscience is the factor of the faculty of mind, which is morally constant by the quality of being **discreet**. **Mathematics** is the eclectic example of conscience.

The Trio-logy of Mathematics ensures that neither atomic field can be measured nor can be defined by any structural magnitude, nor atom can be divided.

Thereby $\sqrt{-1} = 1$ and nothing else.

Thereby $\sqrt{-2} = 2$ and nothing else.

Thereby $\sqrt{-3} = 3$ and nothing else.

Thereby $\sqrt{-\infty} = \infty$ and nothing else.

The Trio-logy of Mathematics further ensures that there is one & only practical certainty of Time and Energy Transposition, as an inseparable dynamic unit of duality of the faceted Singularity, as the relation between creation and its cause.

Further to say that eclecticism is the fixed key to all success, if not resisted by or deceitfully deprived by malign motive. This article is functioning as specimen of eclecticism in due support of my research articles, documents and ordinances, inclusive of the following specified research articles, based on Bēda:

1. THE INTELLECT,
2. THE SUBLIMEEGO (Prajñām)
3. THE SYNOPSIS OF BĒDA AND MY VEDIC RESEARCH.

To:

1. The United Nations,
2. Press Council of India,
3. Worldwide Press Forums through Press Council of India,
4. Worldwide Nobel and Other International Prize Committees/Authorities,
5. We The People of World Civilization of Rationally Conscientious Minds.

THIS IS TO BE NOTED:

That Yōga is the process of attainment of the Prajñāṁ (Sublimeego) to guide Superego against guile, whereof conscience is the factor of the faculty of mind, which is morally constant by the quality of being discreet. The Prajñāṁ eclectically separates laureate from learned by axiomatic conscience.

That Sovereignty is the sublime stand of freedom, where freedom becomes effective by the discreet quality of being conscientious, as freedom of conscience.

Looking forward for the celebration of The International Day for The Total Elimination of Nuclear Weapons, in honour of the Charter of the United Nations.

Looking forward for the upcoming announcements of Nobel Prizes and Abel Prize, in honour of all eclectic excellences of results of research, for the greatest benefit to humankind forever.
